How Stardraw Weblink Works for You

Symbols of your products are distributed with Stardraw applications to a global userbase. Stardraw Weblink gives you direct access to those symbols so that you can embed links to ANY information available via the internet. Web pages, PDFs, sales and marketing information, technical data - with Stardraw Weblink your customers are only one click away from the full range of product information that you have spent thousands to create.

What Stardraw Weblink Partnership Means for You

As a Weblink Partner:

- you will be issued a username and password to access your Stardraw symbols library.
- you can log on to secure pages and add an unlimited number of links from product symbols to any external data
- your links will be immediately available to all Stardraw users

Stardraw Weblink puts the power of the internet to work for you

* Stardraw Weblink Data Entry Service – We at Stardraw can create links on your behalf. Prices charged depend on quantities of brands, products and links to be defined
